3. Many thanks for the tentative listing you gave me by telephone on 29 May. Unfortunately, I now find it will not be possible to make the use I had hoped to make of that tentative listing. Chief/CA/PMG hopes to deal with the availability problem by DDP memorandum to division chiefs; and in order that this memorandum will not have the color of reversing previous refusals by immediate supervisors, he does not wish to approach the supervisors directly. This tactic obviously means that we shall have to work out a definitive, not a tentative list.

4. We will therefore appreciate it if you will list all candidates in a single numerical sequence according to over-all qualifications and send this to us at your soonest convenience - hopefully by Tuesday's [] if this isn't asking too much.
